

THE AUSTRALIAN COUNCIL OF STATE SCHOOL ORGANISATIONS

The national voice of parents of children in Australia's public schools and their school communities

PARENTS THANK OUR NATION'S TEACHERS

The Australian Council of State School Organisations today would like to acknowledge and thank the teachers across Australia in our nation's great Public Schools. World Teachers' Day Australia is an opportunity to celebrate the work of our teachers.

"Every day, as parents, we entrust our children to teachers as they journey through their formal education." said Phillip Spratt, President of the Australian Council of State School Organisations

"Teachers become a significant partner, with parents, in the development of our young people as we work together to enrich their knowledge and experiences"

"They play a pivotal role in helping our young people to be the best they can be. As dedicated professionals their influence has a life-long effect on those that they teach,"

"We recognise that highly skilled teachers are critical for providing quality education. Through their daily work, teachers make a significant contribution to developing students' capacity and desire to learn."

It is most fitting that a day is set aside to recognise their significant contribution to our children, to our families and our society. We encourage school communities to celebrate together.

The Australian Council of State School Organisations would like to thank teachers for their true professionalism and the outstanding work that they do for our children within the public education system in working with families to build Australia's future.
